PROFILE

Tech Lead and Senior Full-Stack Engineer with 6+ years of experience building SaaS and fintech products remotely from Peru for companies in the US and the UK. Currently leading a team of five engineers on a multi-tenant CRM for financial advisory firms, owning code review, releases and quality. Hands-on with TypeScript, React, Next.js, Node.js, PostgreSQL and AWS, and with AI-assisted engineering (Claude Code, Codex) backed by automated review guardrails.

EXPERIENCE

Bill Good Marketing
Altitude: multi-tenant SaaS CRM for financial advisory firms in the US and Canada

Tech Lead, Remote work (Utah, USA) Apr 2025 – Now

- Joined as Full Stack Developer and was promoted to Tech Lead within two months; lead a team of five engineers.
- Own the path to production (backlog, code review and releases): 1,000+ pull requests reviewed and 100+ production releases, while staying hands-on with 550+ merged pull requests of my own.
- Led the move from a legacy system to a new cloud platform on AWS, running in two regions (US and Canada).
- Redesigned subscription billing on Chargebee: plans, seats, licenses, trials, failed-payment recovery and reliable webhooks.
- Leading the mobile app (React Native, Expo) with 2FA and biometric login, offline access and meeting recording.
- Led the team that shipped Pathfinder, an AI assistant for advisors: a tool-calling agent on the Vercel AI SDK (120+ tools) using Claude Haiku, Sonnet and Opus, with pgvector memory and AssemblyAI meeting transcription. Used by 200+ users at 100+ firms.
- Built Pathfinder+ licensing and AI credit purchases on Chargebee, including trials and meeting-hour charges.
- Delivered 40+ customer data migrations from Salesforce, Redtail, Wealthbox, HubSpot, Pipedrive and Maximizer.
- Led incident response and hardening, and strengthened security: tenant data isolation, 2FA and SSO, encryption of sensitive data and a tamper-proof audit trail.
- Built the QA pipeline (a preview environment for every pull request, required CI checks, Jest and Cypress) and introduced AI-assisted development with automated AI code review and shared guidelines for Claude Code and Codex.

United Data Technology (UDT)
IT services provider: cloud, data, cybersecurity and managed services.

Full Stack Developer, Remote work (Florida, USA) Dec 2022 – Apr 2025

- Built Angular (TypeScript) frontends and Node.js backend services on Azure Functions, reducing API response times.
- Migrated the SQL Server database, implemented TypeORM and increased test coverage with Jest (unit) and Cypress (E2E).
- Managed CI/CD with Azure DevOps and integrated SaaS tools like ConnectWise, Channel Online and SendGrid.

Aktek
Risk and safety management systems for organizations.

Full Stack Developer, Remote work (London, UK) Jul 2022 – Dec 2022

- Developed a React SPA and Express backend services with MongoDB (Mongoose) and AWS.
- Refactored legacy code, reducing technical debt and improving maintainability.

Fluyez
Crypto wallet to buy, sell and convert cryptocurrencies.

Full Stack Developer, Remote work (Lima, Peru) Aug 2021 – Jul 2022

- Built React (TypeScript, Redux) UIs and serverless Node.js/NestJS functions on AWS (S3, Cognito, SES, SNS) with MySQL and DynamoDB.
- Integrated payment gateways (Mercado Pago, Culqi), identity verification (Keynua) and error tracking (Sentry).

Human Capital Planning
Recruiting platform covering the hiring process from sourcing to final selection.

Full Stack Developer, Remote work (Lima, Peru) Aug 2020 – Jul 2021

- Built React (Redux, Material UI) interfaces and Node.js (Express) and Python (Django) services with MongoDB.
- Designed and deployed the server architecture and container networks on AWS with Docker.

Freelancing
Web apps for entrepreneurs.

Full Stack Developer, Remote work (Lima, Peru) Jan 2020 – Jul 2020

- Built full-stack web apps with React and Express on Firebase (Cloud Functions, Hosting).

EDUCATION

National University of Engineering (Top 10% of Class)
Bachelor's in Electronic Engineering 2016 - 2021

Platzi – Free Code Camp – Udemy – DataCamp – Books
Full Stack Software Developer 2019 - Now

TECH SKILLS

Frontend Development

- **Languages:** JavaScript, TypeScript
- **Styling:** HTML, CSS, JSS, Styled Components, SASS
- **Frameworks:** React, Angular
- **MetaFramework:** Next.js
- **State Management:** Redux
- **CSS Frameworks:** Material UI, Bootstrap, Angular Material, Tailwind CSS, Shadcn
- **Mobile Development:** React Native, Expo, Flutter (Dart)
- **Design Tools:** Figma, Adobe XD
- **Testing:** Cypress (E2E)

Backend Development

- **Languages:** JavaScript (Node.js), TypeScript, Python
- **Frameworks:** Express, Nest, Serverless, Django
- **MetaFramework:** Next.js
- **API Development:** REST, GraphQL, tRPC
- **Databases:** MySQL, PostgreSQL, SQL Server, MongoDB, Redis
- **ORM (Object-Relational Mapping):** Prisma, TypeORM, Mongoose
- **Authentication:** Sessions, JSON Web Token (JWT), OAuth, SSO, 2FA
- **Billing & Payments:** Chargebee, Mercado Pago, Culqi
- **Testing:** Jest

Infrastructure

- **Amazon Web Services:** EC2, S3, Lambda, Amplify, Cognito, EFS, EBS, CloudFront, IAM, SES, SNS, SQS, ECR, ECS

- **Azure:** Storage, App Service, SQL DB, Data Factory, CLI, Logic Apps, Key Vault, DevOps, Functions, Event Hub
- **Containerization:** Docker
- **Version Control:** Git, GitHub, GitLab, Bitbucket, Azure DevOps
- **CI/CD & Monitoring:** GitHub Actions, Sentry, PostHog
- **AI Tools:** Claude Code, Codex, GitHub Copilot, Cursor, Windsurf, Vercel AI SDK (tool calling), Anthropic Claude API, AssemblyAI
- **BAAS:** Supabase
